

- 1) Do you support continuing funding for Conway's efforts to have a comprehensive, connected and well-maintained bicycling network?
In theory, yes I do. However, I would have to study the budgetary restrictions and availabilities of funds. We have had an extreme need of infrastructure items, mainly street repairs, that have been ignored far too long.
- 2) Will your administration support expanding bike parking so it is increasingly available throughout Conway?
I see absolutely no detriment to this concept as long as the funds are available.
- 3) Do you support Conway's Complete Streets ordinance, a policy that mandates the accommodation of cyclists on all road projects?
I believe this would have to be looked at on a case by case basis. If there is anyway at all to accommodate bicycles then I would go along with it. However, there could possibly be instances that either funding or the type of roadway, traffic, speeds or volume might make it prohibitive.
- 4) Will your administration support funding for Conway bicycle/pedestrian program manager?
At this time there is no way I could commit to additional personnel or positions within the city's budget. That would have to be looked at after studying the present employee allocations and financial bearing it would have on the budget.
- 5) Do you support a community-wide Safe Routes to School program that includes bicycling education?
I am not 100% sure what all that program entails. However, it sounds like a very good concept and I would be extremely interested in pursuing such a concept. Also, I am always supportive of additional education opportunities.
- 6) Do you support bicycling education courses available for adults in the community?
As I stated before I am always supportive of additional education opportunities. And, that applies to all citizens no matter what the subject matter as long as it is for the betterment of the citizens.
- 7) Will your administration fund an up-to-date bicycle map for Conway?
The cost and the need would have to be looked at but at this point I do not see why that would be a problem.
- 8) Will your administration support and celebrate bicycling during national Bike month with community rides, Bike to Work Day, a mayoral ride, and media outreach?
I do not have any problems with these concepts. However, the mayoral ride might be somewhat questionable depending on the requirements. HaHa.
- 9) Do you support law enforcement officers receiving training on the rights and responsibilities of all road users?
Absolutely, our officers should be knowledgeable in these areas of the law just like any other traffic and criminal laws.
- 10) Do you support law enforcement or other public safety officers on bikes?
Yes, I do. At one time the Conway Police Department did have officers on bikes and I am not sure why that practice was discontinued. It needs to be looked at again.
